

Bhakti Sastri Course

This course comprises an in-depth study of Bhagavad-gita, Sri Isopanisad, Nectar of Instruction and Nectar of Devotion. It has been designed for devotees who have been seriously practicing Krishna consciousness for at least a year, and have basic sastric knowledge and understanding. The course has a modular design, which means you could take separate Modules spread over a few years to suite your schedule if you are unable to complete the course all at once. Once you have registered a Preliminary Self-study guide is available to enable you to prepare ahead of each class.
